SCHOOL CHILDREN MAY RIDE FREE. Day Set Apart by Management of the

The Ferris Wheel management has decided to set apart a specified time when all school children can ride free on this internationally famous mechanical wonder. Saturday, July 16, between 2 and 4 p. m., has been fixed upon as the time. The Ferris Wheel is known in every civilized land as one of the greatest mechan-

ilized land as one of the greatest mechanical inventions known to science.

From the lower platform to the extreme height of 225 feet one rides in absolute safety. This is the highest point in the Fair Grounds, and a glorious view of the landscape pictures and buildings can be obtained in the daylight trips. At night no more suchanting scene can be imagined than looking down on the incomparable electrical illumination of the Exposition.

Arrangements are being made for the distribution of free tickets.

The Ferris Wheel was one of the greatest attractions at the World's Columbian Exposition at Chicago in 1830, and, judging from the patronage it is receiving in St. Louis, it is destined to prove one of the higgest drawing cards at the Louisiana Purchase Exposition.

A planoforte recital, including selections from Bach, Beethoven, Haydn and Lossch-horn, will be given in the State hall of the Missouri pavilion at the Fair, by Martha Armstrong, years old, at 2 o'clock this afternoon.

IMPROVED TRAFFIC

MANAGERS REPORT

Pennsylvania Railroad Officials State That the Outlook Is Brighter-H. W. Ashley Is Optimistic.

Vice President Prevost and Traffic Manager Joyce of the Pennsylvania Railroad, who have been actively investigating the traffic situation, say that business is picking up, and that the outlook is much brighter than it appeared a few days ago. This statement causes some surprise, in view of the fact that the Pennsylvania nanagement has been exercising great economy in the matter of operating exemployes and reducing days of shop work. From different quarters there are indications of a revival of activity in trade.

From different quarters there are indications of a revival of activity in trade. The prospects are that this year will break all records for passenger business. The St. Louis Fair, the two presidential conventions and the annual conclaves of a dozen national bodies have enabled the railroad companies to make contracts for special trains all through the summer and until late in the fail.

There are cheap rates everywhere, but the great volume of business is keeping all of the passenger equipment busy, and there is profit in that for each road.

H. W. Ashley, assistant to President Ramsey of the Wabash, says that, in his opinion, much of the retrenchment now planned by the railroad companies will be found to be unnecessary. He reads the signs of the times as propitious, and bases his calculation on the May and June earnings of the Wabash and Ann Arbor lines, which, he says, were alomst as good this year as in the banner year of 1906. Mr. Ashley thinks that business conditions will justify a reinstatement of many of the dismissed employes within the near future.

"To sum up the situation." said Mr. Ashley, "the depression in railroad traffic has appeared only in spots and cuts no figure in the general estimate of the outlook."

REYES DECLARED PRESIDENT. Hurries to Colombia to Watch Counting of Ballots.

Washington, July 6.-General Rafael Reyes was declared elected President of Colombia on July 4, according to a cable message received at the State Department to-day from Mr. A. G. Snyder, American Charge d'Affaires at Bogota, This declaration is presumably made by the Electoral College, the popular elections having been held several months tions having been held several months ago. General Reyes, always a strong candidate, on account of his honesty and his record as a soldier, was then in France. He hurried home to prevent himself from being counted out, after the elections. Senator Velez, President of the Colombian Senate, and who is extremely anti-American, was General Reyes's most formidable opponent. Although General Reyes came to the United States, vowing that Colombia would retake Panama by force of arms, his special diplomatio mission to Washington was unostentatious.

LIVE APART IN SAME HOUSE. Judge Takes Divorce Suit Under Advisement.

According to the testimony in the divorce suit of Carl Froelich, a music teacher of his wife, which was tried in Judge Sale's division of the Circuit Court yesterday and

division of the Circuit Court yesterday and taken under advisement, the couple have lived in the same house since 1833, but not as man and wife.

The couple were married in July, 1863, and have seven children. He charges that she ignored him, treated him with disrespect and interfered with his music pupils. She denies that she interfered with his business and alleged that he paid attention to other women. She carned \$5,000 giving music lessons and gave the money to him to deposit in the bank, and he falled to render an accounting of the money, she avers. He is said to have sold property at No. 1929 Morrison avenue, telling her that he was going to pay off a mortgage of \$4,000 on the house in which they live, but he failed to do so, she alleges.
